THE CHALLENGE & OUR SOLUTION

Challenges Farmers Face

Unreliable product quality and availability

Lack of expert guidance and real-time support

Inefficient farm management and tracking

Limited access to market prices and buyers

Climate unpredictability and crop risks

Complex agricultural workflows and data

The Verdana Solution

Premium agri products with assured quality

AI-driven insights and expert advisory

Smart farming OS for data-driven decisions

Marketplace to buy, sell & track prices

Weather intelligence and risk prediction

End-to-end digital ecosystem for modern farming

Everything a farmer needs, in one unified platform.

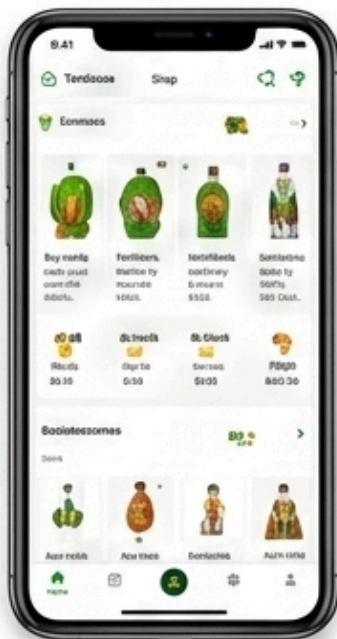

OUR PLATFORM ECOSYSTEM

Four Powerful Portals. One Seamless Experience.

Agri Store (E-Commerce)

Buy seeds, fertilizers, machinery & more with best deals.

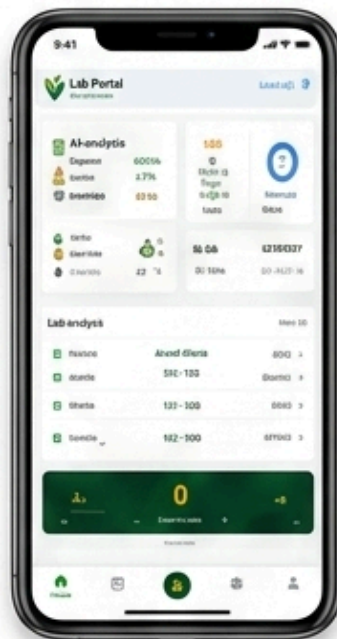

Smart Farming OS (Farmer Portal)

Manage farms, monitor crops, get AI insights & optimize yields.

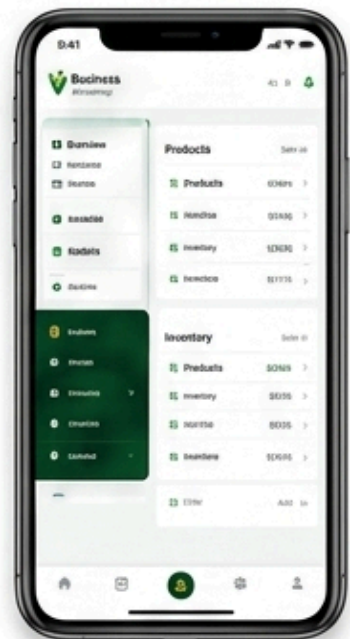

Lab Portal (Agronomist)

AI-powered diagnosis, disease alerts & lab test management.

Business Portal (Seller)

Manage products, orders, inventory, logistics & business growth.
