SECTOR 01 • Engaging Digital Learning Experiences

eLearning

HexaLearn designs and delivers end-to-end digital learning ecosystems. We combine sound pedagogical models with modern technology to produce high-impact courseware, enterprise LMS platforms, compliant SCORM/xAPI packages, and inclusive WCAG 2.2 accessible content.

KEY COMPETENCIES & DELIVERABLES:

✓ Custom eLearning Development

✓ LMS Platforms & Portals

✓ SCORM & xAPI (Tin Can) Integration

✓ Interactive Learning & Simulations

✓ Microlearning & Rapid Content

✓ Gamification & Branching Scenarios

✓ Accessible Learning (Section 508 / WCAG)

✓ Course Migration & Modernization

WHY ORGANIZATIONS CHOOSE HEXALEARN

Instructional Design Mastery

Evidence-based cognitive models designed to maximize workforce retention and behavioral change.

Universal Interoperability

Flawless execution across major LMS platforms (Cornerstone, Moodle, Canvas, Blackboard, SuccessFactors).

Accessible & Inclusive

Screen-reader, keyboard, and contrast-certified courseware ensuring equal access for every learner.

Estimate eLearning Scope

THE HEXALEARN DIFFERENCE

Technology That Solves Real Business Challenges.

We combine fifteen years of engineering discipline, pedagogical expertise, and creative craft to deliver reliable digital solutions that solve tangible operational and learning problems.

Experienced Team

Over 15 years of continuous multidisciplinary expertise across instructional designers, full-stack engineers, 3D animators, and certified QA testers.

Verified HexaLearn Standard

Quality-Focused Delivery

Rigorous ISO 9001 quality management processes and ISO 27001 security standards embedded in every phase from architecture to release.

Verified HexaLearn Standard

Client-Centric Approach

We tailor our delivery models to your specific organizational workflows, providing transparent communication, flexible milestones, and dedicated project leadership.

Verified HexaLearn Standard

Scalable Solutions

Architectures built to grow seamlessly with your user base, from modular courseware frameworks to elastic cloud platforms that handle peak demand.

Verified HexaLearn Standard

Modern Technology

We leverage proven modern stacks—React, TypeScript, PHP/Laravel, MySQL, Cloud, SCORM/xAPI, and test automation—to ensure longevity and maintainability.

Verified HexaLearn Standard

Reliable Support

Dedicated technical maintenance, proactive updates, SLA-backed response times, and comprehensive post-launch warranty support.

Verified HexaLearn Standard

Long-Term Partnerships

Over 95% of our clients engage in recurring multi-year collaborations, trusting HexaLearn as their ongoing digital and learning partner.

Verified HexaLearn Standard

DELIVERY METHODOLOGY

Our 6-Stage Execution Framework

A battle-tested production lifecycle delivering predictable milestones, zero compliance friction, and verified learning outcomes.

Step 01

Discovery & Consultation

Step 02

Architecture & Design

Step 03

Engineering & Development

Step 04

Quality Assurance & Testing

Step 05

Deployment & Rollout

Step 06

Support & Ongoing Partnership

PHASE 01 • UNDERSTANDING REQUIREMENTS

Discovery & Consultation

We engage directly with your team to deconstruct business objectives, target audience requirements, technical constraints, and project milestones.

KEY MILESTONE DELIVERABLE

Project Blueprint & Architecture Roadmap

CORE ENGINEERING & DESIGN ACTIVITIES

- Stakeholder Consultation & Needs Assessment
- Technical Feasibility & Environment Audit
- Scope, Milestone & Timeline Definition
- Security & Compliance Requirements Review

Next phase available upon client signoff
